Derived from: Monopotassium phosphate  
and Monoammonium phosphate

F-002268

### CAUTION

#### Keep out of Reach of Children COMMERCIAL USE ONLY

**Hurricane State of Emergency** is a soluble nutrient formulation that will help correct and prevent phosphorus and potassium deficiencies when used as part of a balanced fertility program. This product contains no dyes.

**Hurricane State of Emergency** is a ripening agent that increases the size and density of all blooms. **Hurricane State of Emergency** can also be used during the first week of flowering to jump start the blooming cycle. **All Hurricane Hydroponic products are AAPFCO (Association of American Plant Food Control Officials) approved.**

### HYDROPONIC/SOILLESS MIXES USE:

**Early Bloom:** Use ½ TSP - 1 TSP Per 5 gallons of water during early flowering time periods.

**Late Bloom:** Use during late flowering time periods at 2 TSP per 5 gallons of water.

**NOTE:** The amounts of base nutrients may need to be reduced up to 50% when using **Hurricane State of Emergency**. Refer to Hurricane Hydroponics Feeding Chart for best results.

### IN CASE OF CONTACT

**INGESTION:** Drink two glasses of water or milk if conscious. Seek immediate medical attention.

**EYES:** Rinse with clean water for 15 seconds. Seek immediate medical attention.

**SKIN:** Remove contaminated clothing. Wash with soap and water. Seek medical attention.

**STORAGE:** Store in a cool place in original container in locked area inaccessible by children, pets, or wildlife.
